## Technical Specifications

## 4228RT (10X4)

|                                      |  |
|--------------------------------------|--|
| Model                                | 4228RT                                   |
| Configuration                        | 10x4                                     |
| GVW (Kgs)                            | 42000                                    |
| Engine                               | 0M 926, 7.2L BS6                         |
| Power                                | 281hp @ 2200rpm                          |
| Torque                               | 1100 Nm @ 1200 1600rpm                   |
| Clutch                               | 395mm Dia, Single plate, Dry type        |
| Gearbox                              | 9F + 1R                                  |
| Rear Axle                            | IRT390                                   |
| Rear Axle Ratio                      | 4.778                                    |
| Frame (L x W x T) (mm)               | 284 x 70 x 8                             |
| Front Suspension                     | Parabolic                                |
| Rear Suspension                      | Balancer                                 |
| Brakes                               | Fully air S-cam, Dual Circuit            |
| Front, Rear & Pusher axle brake (mm) | 410x180 drum, 410x220 drum, 410x180 drum |
| Battery                              | 2 x 12V, 120 Ah                          |
| Fuel Tank (L)                        | 330                                      |
| Tyre Size                            | Radial (tube) - 295/90R20 (S), 11x20 (O) |
| wheel base (mm)                      | 6575                                     |
| Running Gradeability (%)             | 32.30                                    |
| Min TCD (m)                          | 24                                       |
| Ground clearance (mm)                | 247                                      |
| Kerb weight (Kgs)                    | 10750                                    |
| Loading Span (ft)                    | 23                                       |
| PTO type                             | Spline                                   |
| Max Speed(kmph)                      | 60                                       |
